RE: Resource Recovery Certification RR0268-A, Closure Notification
Classification - U

Dear Mr. Haake:

The Missouri Department of Natural Resources' (MDNR) Hazardous Waste Program's (HWP) Permits Section has received a closure notification for the above-referenced resource recovery unit. Before this notification can be accepted, the disposition of the resource recovery unit equipment after closure also needs to be described per 10 CSR 25-9.020(3)(E)(1)(A).

The closure of a resource recovery unit and/or a change in ownership are explicitly considered a major change of a resource recovery certification requiring 60-day prior notification and approval per 10 CSR 25-9.020(3)(E)(1) (copy enclosed). Please comply with this regulation for any future major resource recovery changes.

Please submit the requested information within 30 days of receipt of this letter. If you have any questions regarding the above, please call me at (573) 751-3553.

Sincerely,

HAZARDOUS WASTE PROGRAM

Daniel A. Carey
